EMG Signals

How hard are our muscles working?

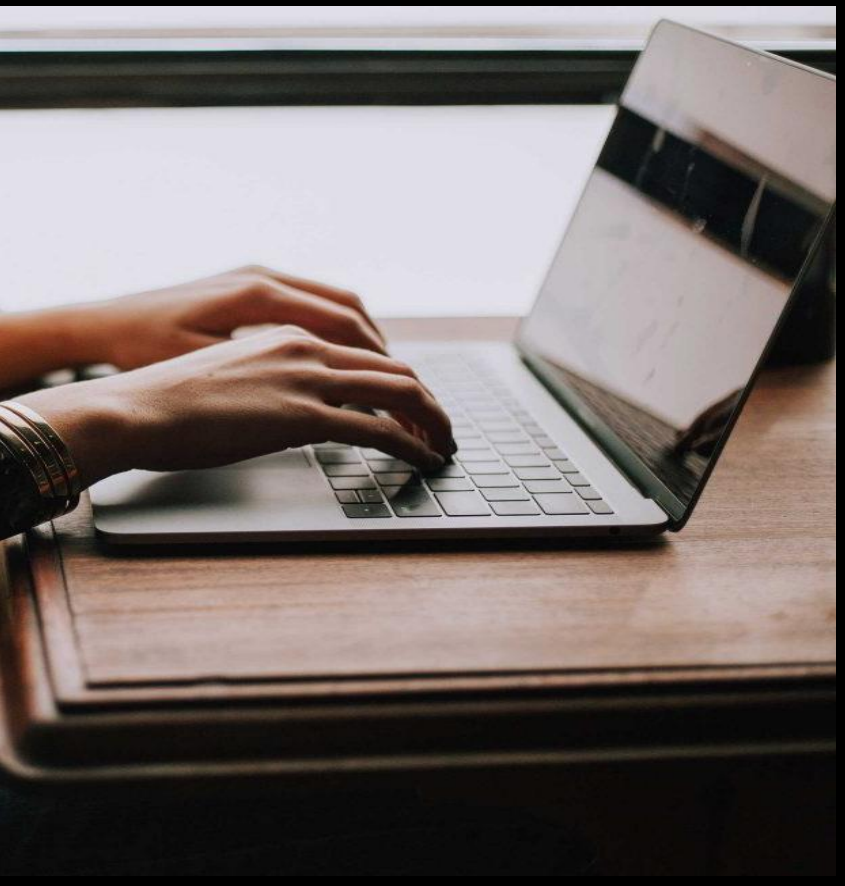

Team 27

!!!!DELETE THIS SLIDE!!!!

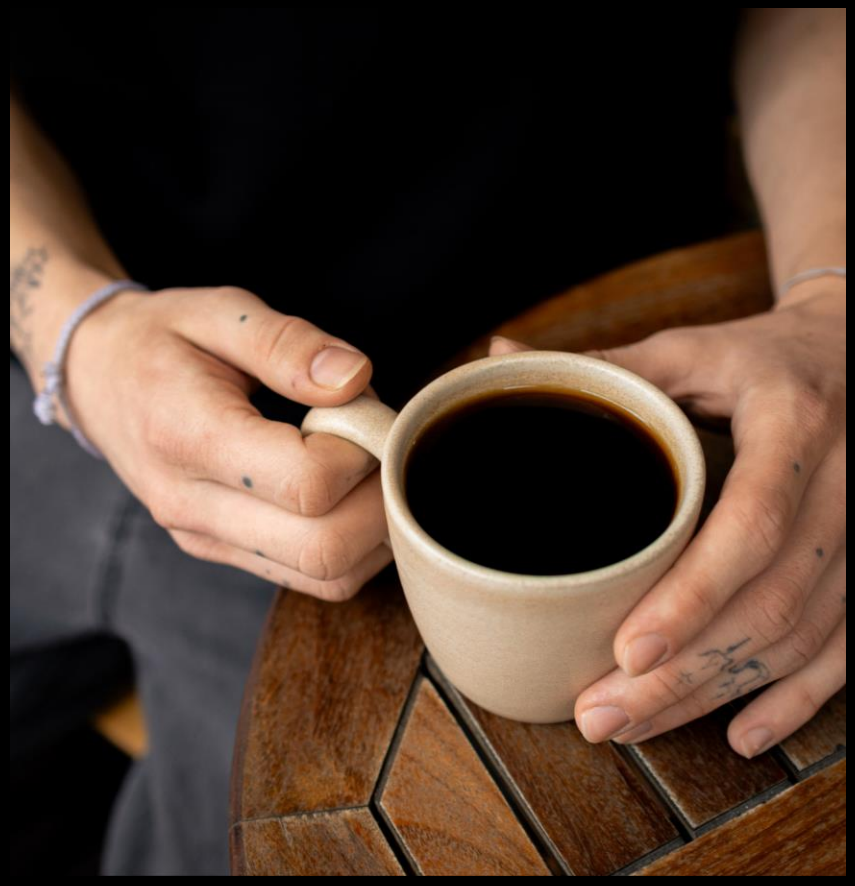

REMEMBER to edit the slides slightly, may be as easy as changing a few photos and changing the theme of the ppt... but shhhhh

How hard do our muscles work?

Investigating muscle activation during everyday activities

TYPING

GRIPPING

WRITING

Using electrical signals from our muscles to investigate five everyday activities

Resting | Typing | Gripping | Writing | Opening a Door

Slide 2 – Your muscles generate electricity

- Explain muscle activation and surface EMG

Slide 3 – How do we measure muscle activity

- Introduce MyoWare 2.0 and an annotated electrode diagram

Slide 4 – What do the measurements tell us

- Actual EMG results and comparisons

Slide 5 – What have we discovered

- Explain findings and real world significance
